## About

*We aim to provide a service that will help members keep their Morris in good fettle and suitable for safe and enjoyable motoring.*

The Shop is run by Lindsay and David Smith in their own free time. They are not equipped to go into detailed discussions with members as to which is the correct part for their car. The information given in the descriptions in the online shop should be sufficient to identify the parts you need.

The online shop also has many help charts to assist with identifying the correct parts.

If you are not sure what the correct part is, then please put a request for help onto the Clubs Forum. There will always be members “on line” who will be able to share their knowledge with you.
