Introduction

The Spares Service operates from the Morris Register's facility in Hinckley, manned by volunteers who endeavour to process orders twice a week. We now stock over 500 lines and it is growing!

Most Spares are newly manufactured, but we also supply new old stock when it becomes available.

Newly Manufactured items include rear hubs and half shafts, engine water inlet pipes cast to original spec. We are always interested in hearing from **Suppliers** and **Manufacturers** who can help us supply new lines.

Morris Register Members

benefit from a **12.5% Discount** off the website prices by entering the discount code published each month in Morris Monthly

How to purchase spares

Ordering Online, simple and safe

You can pay online with a debit or credit card through the secure PayPal gateway, it is not necessary to have a Pay Pal account.

VAT will automatically be charged **only** if spares are despatched to **the UK**. The website will work this out based on shipping destination. Non-UK orders will not be charged VAT, our delivery agents will calculate customs and duty charges due when the goods cross the border into the delivery country and contact customers to arrange necessary payment.

Shipping is automatically calculated using Royal Mail rates based on an orders weight, dimensions & shipping location. if you require a different service please let us know.
